

TEAK WONDER

Cleaner and Brightener

These leave the deck looking like 'new'. Applying the two products contained in each bottle one after the other washes away the grey colour that has accumulated in the wood only to rediscover the splendid golden colour that new or just sanded teak possesses. All in a few minutes and without removing millimetres of precious wood from the deck, as occurs during sanding. Neither of these two liquids is aggressive or caustic and therefore does not damage rubber, paint or stainless steel fittings. An incredible way of saving time and effort. @even if Teak Wonder Brightener does not always have to be applied, using it on teak just washed with Teak Wonder Cleaner when it is rather dark, is a miraculous sight: it immediately acquires that just sanded colours' (quote from 'Practical Sailor').

Dressing and Sealer

Will keep the splendid golden appearance without having to wash teak every day with fresh water. Applying the product seals the pores of the wood thus preventing the penetration of the dust and dirt that darken it, and also protects the natural teak oils against the ultraviolet rays that oxidise and discolour them. The dressing also prevents liquids such as diesel oil, fish blood, and paints from penetrating the wood, making subsequent cleaning easier.

Teak Wonder Dressing and Sealer does not smell once fully applied, does not become shiny or slippery, does not stick, dries rapidly and does not make or build up the surface. It is the clearest of treatments during application and becomes practically invisible once it has dried.
